

Summary of Actions under the TLD Designation

Milestone	Action
Member becomes incapacitated and is on AFLD status.	Member is treated at local Military Treatment Facility (MTF).
3-Month Point Member is incapacitated on AFLD status.	<p>Medical Officer: Place member on TLD and inform the member's command of this action. Specify a day when the member will be AFFD (member's prognosis must be AFFD within the next 6 months). Command endorsement is not required.</p> <p>Command Clinic Administrator: Make TLD designation visible by informing CGPC (adm-1), and CGPC-epm/opm or servicing ISC (pf), and establishing a tracking system for the member.</p> <p>Member's Command: Coordinate follow-up medical evaluation or treatment for member with losing and receiving MTF (if applicable).</p> <p>CGPC: Issue PCS orders to fill critical position. Re-assign TLD member. Coordinate between epm/opm and the affected commands in accordance with the current policy and the criticality of the position. Note: 3 months is a guideline for the medical officer.</p>
3- to 6-Month Point Member is on TLD – time is cumulative from outset of initial AFLD status.	<p>Medical Officer/Command Clinic Administrator/CGPC: If required, initiate a MEB (Medical officer cannot state in writing that member's prognosis will be AFFD within the next 6 months).</p>
7- to 8-Month Point Member is on TLD – time is cumulative from outset of initial AFLD status.	<p>Medical Officer/Clinic Administrator: Reevaluate member's TLD condition.</p>
9- to 12-Month Point Member is on TLD – time is cumulative from outset of initial AFLD status.	<p>Medical Officer: Terminate TLD status of member (either member becomes AFFD or an MEB is initiated on member).</p> <p>Command Clinic Administrator: Take appropriate action if member is terminated from TLD and has a MEB.</p> <p>CGPC: Issue PCS replacement orders for other than critical position if warranted (process begins once MEB received at CGPC). CGPC assignment officers (epm/opm) will coordinate with the affected commands in accordance with the current policy. Note: 9 to 12 months is a guideline for the medical officer.</p>

<p>More Than 12 Months Member on TLD – time is cumulative from outset of initial AFLD status.</p>	<p>Medical Officer/CGPC Senior Medical Officer: If a MEB is not warranted, request for extension of TLD status – status continued.</p> <p>CGPC: Issue PCS replacement orders for member's position if warranted (coordinate with command). Assignment officers (epm/opm) will coordinate with the affected commands in accordance with the current policy.</p> <p>Note: 12 months is a guideline for the medical officer.</p>
